

## What is an Angel Card reading?

Simply stated, an Angel card reading provides a way for you to receive Angelic guidance. There are many different Angel card decks to choose from. My personal favorites are Doreen Virtue's Archangel Oracle Cards and Messages from your Angels.

In preparing for your Angel card reading, it helps if you focus on either a question or a situation that you'd like to receive Angelic guidance for. Then, I'll pray over the cards and begin shuffling. When it feels right to stop, I'll cut the cards three times and then draw three cards. Although there are many types of spreads, I like to work with a three card spread. One by one, I'll interpret the meaning of each card and also share any thoughts, impressions, or feelings that I receive.

Sometimes, there will be a theme or common denominator running throughout the cards being read. Sometimes, the illustrations and colors on the cards themselves will have important and relevant information. If there is a conflict in the messages on the cards read, it could be that there's a conflict about the situation. Every card drawn is significant in helping you gain clarity about your life. The Angels are happy to help you at any time...all you have to do is ASK!
