

Angels

Did you know...?

- *Angel or “angelos” in Greek means “messenger”*
- *Everyone has at least one Guardian Angel that is assigned at birth.*
- *Your Guardian Angel never leaves your side.*
- *Your Angel loves you unconditionally and is never judgmental.*
- *Your Angel cannot interfere with your free will.*
- *If you need help or guidance from your Angel...just ask!*
- *When you invoke an Angel, they must respond and all requests are answered.*
- *Angels do not have wings (Except for the higher orders of Angels like the Cherubim) or halos.*
- *Angels have never been human (with the exception of the Archangels Metatron and Sandalphon who were the twin brothers...Elijah and Enoch). Humans don't become Angels when they die.*
- *Angels are pure unlimited energy, light and love; neither male or female.*
- *Archangels oversee Guardian Angels and other Celestial Light beings.*
